Introduction

Congratulations on your decision to attend college! This choice will put you on a path to success, but there are several important deadlines and details to keep in mind along the way—especially as you start to decide which school you'll attend.

This eBook is intended **only for students planning to attend a college in Massachusetts**. It includes a listing of colleges, universities, and trade schools in Massachusetts, plus information about admissions requirements, standardized testing, and other college planning resources to help you stay organized and focused throughout the process. Some of the details provided about Massachusetts colleges are subject to change over time. For the most up-to-date information, please consult the school or their website directly.

If you have additional questions or need help with your post-secondary planning, please contact or visit one of our [American Student Assistance College Planning Centers](#). Our planning centers provide free, one-on-one assistance and resources to make college accessible and affordable for you and your family.

Public Online Degree Programs

- [University of Massachusetts Online](#)
- [Massachusetts Colleges Online](#)

Massachusetts state universities and public research universities are interested in admitting students with strong academic records in high school—including the following three criteria.

1. Academic College Prep Courses Taken		
English	4 courses	
Math	4 courses	Algebra I & II and Geometry or Trigonometry, or comparable coursework including mathematics during the final year of high school
Sciences	3 courses	Including 2 courses with laboratory work
Social Sciences	2 courses	Including 1 course in U.S. history
Foreign Languages	2 courses	Including a single language
Electives	2 courses	From the above subjects or from the arts and humanities or computer sciences

2. High School Grade Point Average

GPA should be 3.0 or higher for college prep classes only/weighted for accelerated courses.

3. SAT or ACT Sliding Scale

If GPA is lower than 3.0, SAT or ACT scores are evaluated on a sliding scale. Beginning in March 2016, the College Board instated a NEW SAT. Please refer to the sliding scale that corresponds to the version of the SAT (OLD or NEW) that the student has taken.

Note: Massachusetts state colleges consider a wide range of factors when making admission decisions. Students are not necessarily guaranteed admission if they meet these requirements—especially applicants for competitive programs. More information about admissions standards is [available here](#).

Salt Delivers The Tools For Success

Your institution has partnered with Salt®, powered by the nonprofit American Student Assistance® (ASA), an education finance support program that helps remove financial barriers to education, so students and alumni can freely and confidently pursue their dreams.

Salt leverages ASA's 60 years of experience managing student loan debt to empower students to successfully plan for, pay for, and repay their higher education. The program is underwritten by ASA® as well as 300 higher education institutions, nonprofits, and employers who partner to successfully guide millions of students and alumni through the financing process. With a combination of financial education, personalized student loan advice, and straightforward budgeting tools, Salt's unbiased advisors help students make smart decisions about education costs so they can achieve a positive financial future.

How Salt Works

Salt is a total solution that does all of the basic work—from educational design and content to promotions and even the timing of communications—so that your school can successfully reach students and alumni. The result: your school and your graduates are equipped to excel.

Your institution recognizes the need to help students and alumni learn how to be more financially savvy. You understand the need to teach money management, including how to find scholarships to reduce the amount of loans, how to live on a budget, how to stay on track with repayment, and how to get a career off the ground after college. You see that financially strong students and alums can, in fact, make your school stronger.

We are proud to have you as a Salt partner, and look forward to working with you to help you create your Salt movement.
